

# The most...

**Advanced** screen system for Venlo greenhouses

## ValkScreenVision 2.0

Quicker, safer, cleaner and more flexible screen insertion for crop and installer

### Unique components ▼

#### ValkScreenProfile + ValkTrussProfile

The **ValkScreenProfile VSV** and the **ValkTrussProfile** have special chambers for the guide strips that have been pre-fitted to the screen cloth.

- ✓ no cloth clips needed
- ✓ various lengths
- ✓ easy stacking

 **ValkScreenProfile**

Click on the QR code 

#### ValkTrussClip

The **ValkTrussClip VSV** fixes the ValkTrussProfile to the truss in a very strong connection.

- ✓ better clamp force
- ✓ prevents wear & tear atlas wires
- ✓ highly compact

 **ValkTrussClip**

Click on the QR code 

#### ValkWireGuide

The **ValkWireGuide VSV** allows the profile and the atlas wires to move independently.

- ✓ easy to attach
- ✓ keeps screen cloth clean
- ✓ keeps installation tension-free

 **ValkWireGuide**

Click on the QR code 

#### ValkDelta

The **ValkDelta** retracts the screen cloth across the full width of the greenhouse section.

- ✓ no tension on screen
- ✓ no folding of screen
- ✓ easy to (dis)connect

 **ValkDelta**
